OBJECTIVE

Motivated and detail-oriented Texas A&M University student seeking opportunities in civil engineering, construction management, and GIS technology. Passionate about integrating technical knowledge, leadership experience, and fieldwork skills to contribute to innovative infrastructure and land development projects.

EDUCATION

Texas A&M University, College Station, Texas — Graduation: December 2026
Bachelor in Geological Information Systems and Technology — GPA: 3.604
Minor: Leadership in the Design and Construction Professions

EXPERIENCE

Sendero Homes, Austin, Texas — May 2026 – August 2026
Intern

- Developed an automated construction cost estimation tool for Sendero Homes, streamlining budget creation and project cost analysis.
- Applied construction cost estimation and project budgeting knowledge to design accurate, scalable estimation logic.
- Collaborated with the estimating and marketing teams to align the tool with company workflows and support business development efforts.

Service Group, Austin, Texas — May 2026 – August 2026
Real Estate Development Intern

- Shadowed Cosmo Palmeri, Vice President of Real Estate Development, to gain firsthand exposure to real estate development strategy and operations.
- Observed site evaluation, deal structuring, and project planning across active real estate development projects.
- Gained insight into executive-level decision-making and leadership within a fast-paced development environment.

Gray Engineering Inc., Austin, Texas — May – Aug 2024, May – Aug 2025
Intern

- Supported engineers and project managers in land development and entitlement processes, including site plan preparation, permitting coordination, and municipal submittals.
- Assisted in reviewing construction documents and managing project timelines to ensure compliance with design and regulatory standards.
- Participated in pre-bid quantity takeoffs, contractor coordination, and construction inspection activities.
- Collaborated with the entitlements team to prepare exhibits and reports for zoning and site approval.
- Developed professional communication and problem-solving skills in a fast-paced engineering environment.

Platinum Underground, Georgetown, Texas — May 2023 – August 2023
Intern

- Gained hands-on field experience in underground utility construction and project operations.
- Shadowed project managers to learn about workflow coordination, safety standards, and quality assurance.
- Strengthened leadership and teamwork abilities through collaboration with crews and management.

ACTIVITIES

Pi Kappa Phi Fraternity, Texas A&M University — August 2022 – December 2025
Vice President (2025), Rush Chair (2023–2024)

- Oversaw chapter operations, recruitment, and event planning while managing a team of committee chairs.
- Organized recruitment campaigns that increased membership and enhanced the fraternity's presence on campus.
- Coordinated philanthropy and leadership development initiatives that strengthened brotherhood and community involvement.

SERVICE

Habitat for Humanity – Assisted with community construction and cleanup projects locally. — Nov 2023 – Dec 2023
Big Event – Texas A&M's university-wide day of service for the Bryan–College Station community. — April 2024

SKILLS

Technical: ArcGIS Pro, Java, Microsoft Excel, AutoCAD (basic), Claude (AI), Project Documentation
Interpersonal: Leadership, Team Collaboration, Communication, Time Management
Professional: Construction Management, Permitting Coordination, Problem Solving
